

# Kappa Marine Soundbar

Infinity Kappa 4100msb Amplified Marine Soundbar

## POWERFUL PERFORMANCE COMPANION FOR YOUR ACTIVE LIFESTYLE.

Standard-setting Infinity pro and home audio performance is now available for boaters. The new Infinity Kappa Marine Soundbar is designed for boats as well as other fun family vehicles. Take the helm and experience the sound of powerful INFINITY rollicking sound. (Try 100dB at fifteen feet!) It's also equipped with a super flexible mounting system that will let you ride the waves and take a 10G shock knowing everything is still on board. You can also separate the soundbar into two speaker towers to optimize sound quality for any boat installation including pontoons. Bluetooth, 3.5mm and RCA output jacks allow you and your friends to take turns streaming playlists. There's a GoPro™ shoe for an action camera to share your most exciting moments. With a glowing red LED output display and ambient lighting, you're in the cockpit ready to do things you've never done before—be it on land or sea.

- ▶ Full-Range Separable Speaker System
- ▶ Flexible Placement
- ▶ Detachable Remote BT
- ▶ Class D Amplifier with Multi-Inputs
- ▶ Party Mode
- ▶ Outstanding Display and Appearance
- ▶ Audio Output
- ▶ Power/Protection LED
- ▶ Micro USB

# Kappa Marine Soundbar

Infinity Kappa 4100msb Amplified Marine Soundbar

## FEATURES AND BENEFITS

### Full-Range Separable Speaker System

The high performance speaker array consists of a pair of 4" long excursion mid/woofers and one high output tweeter per channel. The KAPPA 4100msb can also be separated into two speaker towers utilizing the optional Infinity 300ke separation kit which includes a 9.8' (3m) bridge umbilical cable and rear and bottom filler plates.

### Flexible Placement

A versatile mounting system with universal mounting clamps, inserts, and quick release brackets offers easy installation and multi-mounting options—including pontoon boats.

### Detachable Remote BT

A detachable RF remote gives you full control over your music wherever you are without having to aim the remote at the Soundbar and worrying about the sunlight washing you out.

### Class D Amplifier with Multi-Inputs

The high-efficiency Class D amplifier with 120Wrms per channel is equipped with Bluetooth, 3.5mm and RCA inputs and includes intelligent priority switching, greatly simplifying the user interface by completely eliminating manual source selection. The 3.5mm jack overrides Bluetooth, which overrides the RCA inputs. Simple and efficient!

### Party Mode

This provides simultaneous connection of up to three Bluetooth devices—while playing music from one device at a time. Audio will stream from the device most recently selected and pause other AVRCP-compatible devices. Share playlists with three of your closest friends.

### Outstanding Display and Appearance

Aside from being an impressive looking product, the KAPPA 4100msb is also weatherproof and splashproof with an IPx6 rating. A glowing red LED display across the front panel flashes in time with the music. And dual-level LED down lighting makes a perfect work light for reading maps or executing other on-the-move tasks.

### Audio Output

Two channel full-range L & R outputs enable you to expand the sound system with additional components such as a powered subwoofer or amplifier.

### Power/Protection LED

Power/protection LED flashes when amplifier shuts down due to overcurrent, overvolt, overtemp, or DC offset.

### Micro USB

A micro USB connection is provided to future proof the KAPPA 4100msb with software updates.

## WHAT'S IN THE BOX

### INFINITY KAPPA 4100MSB MARINE Soundbar

- 2 soundbar speaker sections
- 2 mounting brackets
- 1 AVRCP remote control and battery
